ALPINE X009E-U

UNIVERSAL 9" DVD/USB/MP3/WMA/AAC/DIVX/ HDMI NAVIGATION STATION

The X009E-U makes in-car entertainment a bigger and better experience with its massive 9" WGVA touch screen.

Enjoy stunning playback of music and video from CD/DVD, iPod/iPhone and USB devices. The HDMI input enables high resolution display of video and content output from HDMI sources and compatible smartphones, and MirrorLink lets you connect to compatible devices to play music, use apps and navigation. Plus, built-in Bluetooth Plus provides audio streaming and full hands-free operation with access to phonebook and advanced functions.

Its innovative 'One-look Navi' allows a 50/50 split screen mode which displays navigation and the selected source for convenient operation and information at a glance. With its premium navigation you have high-res maps with live traffic updates, text-to-speech, 3D landmarks, fixed speed and red light camera alert, 4WD off-road maps and an enhanced POI database. What's more, sound tuning options include the Tunelt app for iPhone and Android, and built-in Bass Engine SQ, allowing precise personalised tuning for the best sound quality.

Create Your Ultimate Custom Installation

Let your installation creativity run free, the X009E-U lets you design, build and fabricate the ultimate indash installation with an enormous 9" panel.

The included universal installation parts along with outer frame make custom installation with a professional finish possible. By using the frame panel precision grafting into the existing OEM dash panel or customising of an aftermarket dash panel can be achieved by experienced installers.

Additionally, the supplied universal mounting brackets enables versatility to mount the main chassis as well as the key unit securely.
